October 8, 2025

Invitation to ReSKILLING workshop on CCAM employment effects

With the ReSKILLING Project, we **are investigating the transformative potential of Connected, Cooperative & Automated Mobility (CCAM)** for the transport sector and its workforce, taking into account all the related challenges to tackle and the opportunities to seize in both the near and long term!

In an effort to present, review, and enrich our preliminary findings, we are glad to invite you to join our **in-person Workshop on the Employment Effects of CCAM** on October 8th from 9:30 to 12:30 in Brussels, Belgium.

With this workshop, you will be among the first experts having the opportunity to:

Learn about the **early results of our analysis on the employment impacts** across the CCAM value chain

Provide **inputs to enrich our research outcomes**, ensuring they reflect real-world perspectives and needs. By hearing your voice, we can promote an **inclusive, fair, and participatory process for the CCAM transition** in line with our project vision

Network with peers and other high-profile stakeholders in the field, including policy makers, representatives from industry and infrastructure, labour and workforce representatives, researchers, mobility and transport service providers, and technical experts.

Key details

- October 8th, 09:30-12:30 CET
- Learning & Innovation Center ULB-VUB
- Language of the workshop: English
- Register **via our form** before October 5th (**mandatory**)
